ALL YOU NEED TO KNOW ABOUT THE NOVICE WEEK

WELCOME!

Dear Novices,

Congratulations on being accepted into Lund University School of Economics and Management. Your hard work and dedication have now officially paid off. We at LundaEkonomerna would like to welcome you to one of Sweden's leading student unions and, in my opinion, the greatest in the world.

LundaEkonomerna is here to support you through your education, arrange unforgettable events and help you build connections for your career. Whether you are interested in finance, consulting, marketing or any other industry, you will leave LundaEkonomerna with a valuable network of connections. As a LundaEkonom, you will have the opportunity to take part in incredible sittings and balls, meet fantastic people and be able to influence your own education through our close partnership with the school.

Before your studies, you have a super fun novice week ahead of you. The novice week is a great opportunity to meet new people and get to know both Lund and LundaEkonomerna. The Novice Committee and your fadders will ensure that you get the best possible start in Lund. During The Novice Week, I created fond memories and I met people who are now some of my closest friends. With that said, I hope you make the same decision as I made and join The Novice Week! It was truly the best possible way to kick off my time in Lund.

LundaEkonomerna and I are incredibly excited to meet you and welcome you to Lund and to our union. Once again, a huge congratulations on getting accepted to Lund University School of Economics and Management.

See you on the 24th of August!

The Schedule of the Novice Week

MONDAY 24/8

Welcome to the Monday - the intro day of the best week ever! You will be greeted by the school and the principal, as well as meet the Novice Committee, your thrilled fadders and most importantly, your fellow novices! The day begins at 10:00 in Ljusgården at Tunavägen 37. You will have the afternoon to get to know each other and challenge the other novice-groups in a lot of fun games. In the evening, your fadders will arrange some fun pre-parties before going to the main party at a nation. The night will end with a legendary after party at LundaEkonomerna's beloved Student Union HQ, Skånis

TUESDAY 25/8

Tuesday is the city day! On this day you will get to meet your new home - our beautiful city of Lund! You will discover Lund with your fellow novices, fadders and the Novice committee. You will also have the opportunity to meet other committee members from Lundaekonomerna. Throughout the day you will get to compete with other fadder groups and challenge your knowledge of our beloved city. The day will continue with a party at one of the nations and then end with an afterparty at Skånis.

WEDNESDAY 26/8

Wednesday is for you to rest and chill. You will need to recover from the long days so that you are fully prepared to bring all your energy and "tagg" for the upcoming days. The day will start with an important part of student life in Lund: SPEX! In your group, you will be planning a spex that you will perform on Friday, so let the ideas flow! During the afternoon you will gather with the other groups for a well needed and relaxing group yoga session. During the night we will NOT be going to any nation or Skånis, so make sure to get some well needed sleep!

The schedule of the Novice Week

THURSDAY 27/8

The Big Playday! This is a day filled with challenges, games and dances. You'll also get the chance to show the other groups who's the BOSS of inflatables! Bring a super-psyched eager to win, both the games but most importantly: the cheer points! Make sure to be in a competitive spirit, warmed up and excited! We look forward seeing you and your group compete against the others, it is surely a day you will remember!

FRIDAY 28/8

After a long week of competing, Friday will consist of: more competing. Get ready to give your last energy, hype and creativity through a spex-performance in front of the other groups and a jury. If you manage to impress the audience, you might as well qualify for the final-spex and have a chance to be crowned The Best Spex-group of HT2026. The activities during daytime will be more concise than the other days, starting at 09:00 in, or around EC and the day will last until around 15:00 so there is time for you to prepare for the final after party...

The Novice's dictionary

Novice

All new members of LundaEkonomerna are called Novices

Fadder

(or mentor) – The heroes who before, during and after the Novice week will take care of you and your fellow novices. Their task is to make sure you have an unforgettable week and start of your new life as a LundaEkonom.

Skånis

The headquarter of the student union LundaEkonomerna. This is where Lunds and maybe even Sweden's best after parties takes place during the Novice week. During school hours it is a perfect place to study or to just hang around. Everyone is welcome!

@novicecommittee.le

Is probably the world's greatest Instagram account where you can keep up with the Novice Committee and our preparations before the week. We will of course keep the account updated during the whole week. Follow us!

Academic quarter

Back in the old days, when people didn't own a personal watch, you knew that when the church clock rang, you had a quarter to get to lecture. This tradition remains today as lectures often begins a quarter after stated time.

Double quarter

After 6PM the lectures start 30 minutes after stated time. Originally this was due to give the men a chance the get home and change for a jacket before the evening.

Prickprick

(..) - means "sharp sharp". If you see these words behind a stroke of a certain time, it means that it is important that you are no later than the given time.

Sittning

is an expression we are guessing you are familiar with, a common event run by both student nations as well as student unions, such as LundaEkonomerna. This may be one of the most well-known and exciting activities you ever experience during your student life. There are two different kinds of sittings:

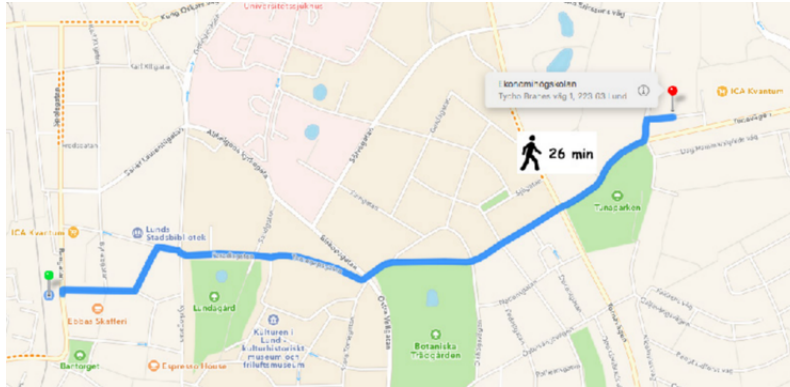

Firstly, we have the more elegant version called **Finsittning** where you are expected to suit up and enjoy a traditional three course meal, tons of speeches and dinner entertainment. Secondly, **Fulsittning** a simpler concept usually including a theme. Both are awesome dinner parties, followed by wild afterparties.

Find your way

The School

From the Central Station to the School of Economics and Management The easiest way to get to EC (Economics Center) is to go by bus from the Central Station. Take bus no. 6 or no. 7 from bus stop M or K and exit the bus at "Lund Warholms väg" across the street from the School of Economics and Management. There you will find the main entrance to EC1 and Ljusgården. Take a look at www.skanetrafiken.se or download their app!

AF-Borgen

During your time as a LundaEkonom there will be many events hosted at AF-Borgen. The LE Novice Party on 2nd of October will be the first! Therefore it might be a good idea for you to find your way there. You can find AF-Borgen about 750 metres from the central station in a park called Lundagård.

LundaEkonomerna's headquarter "Skånis"

Skånis is the small yellow building placed on the courtyard surrounded by EC1, -2 and -3. The easiest way to Skånis is to go through main entrance of EC1, pass the reception and in to the cafeteria of EC3. The courtyard will now be placed on your left hand side with Skånis being the only building there. Don't worry, once you're there you can't miss it!

LundaEkonomerna - your student union!

The main purpose of LundaEkonomerna is to monitor the quality of the education at Lund University School of Economics and Management, but as a student you're offered so much more.
