

HI!
FALL 2026

WELCOME

LundaEkonomerna (LE) Student Union is an organisation driven by students. We are the home of all students studying at Lund University School of Economics and Management (LUSEM), and our job is to ensure that you get the most out of your student life in Lund. Our 300 Active Members work together to improve the education at LUSEM, the future careers of our Members, and the social life of students.

We do this by arranging various events, making sure that our members can affect their education, find career opportunities and meet new people. Our 26 Committees produce about 100 events per year, and our committees are divided into four legs: Education, Social, Career, and General. We take pride in being able to offer something for everyone who wants to take part in activities in parallel to their studies.

This brochure will hopefully give you an insight into what LundaEkonomerna has to offer. To keep up, make sure to visit www.lundaekonomerna.se and follow us on social media.

If you have any questions or ideas, you can always contact us through email, call us or drop by Skånis for a chat. Information on how to contact us is available further down.

ENVIRONMENT

LundaEkonomerna continuously works towards becoming as environmentally conscious of a Student Union as possible. Therefore, in 2019 our organisation signed the so-called “Klimatuppropet”, or Climate Call, at Lund University. It is a petition demanding that the faculties at the university reduce their emissions with 50% within four years in order to reach the goal of the Paris Agreement.

As a student union with good relations to the faculty, it is important that we try to lead by example. By the Spring of 2020 we established an Environmental Policy that will aid us in achieving this goal. Read more about the policy on our website. Moreover, some of the things we actively work towards are:

Vegetarian menu as the standard option all our events, **less use of disposables**, **no flights**, and **recycling** at all our events.

If you have any tips on how we can develop our organization with our work with sustainability, we encourage you to please contact info@lundaekonomerna.se
